

City of Upland Parkway Restrictions

- Must follow all City codes; for any clarification contact the City's planning department at: (909) 931-4100
- Parkway should maintain healthy and growing cultivated vegetation common to most residential or commercial property, and/or planned drought tolerant landscaping schemes.
- No improvement or vegetation, other than trees, is permitted to exceed 24 inches in height.
- No vegetation is permitted to grow onto utility poles, street and traffic signs, fire hydrants, or tree trunks.
- No plantings are permitted which are spiny, barbed, or thorny.
- No vegetation should be dead, decayed, diseased, dry or hazardous.
- No vegetation, gravel, or rock shall overhangs or encroaches upon any gutter, sidewalk or street that may impede traffic.
- Weeds are not permitted and soil shall not be exposed.
- Only those trees appearing on the list of approved trees for use along the streets of the city shall be planted in public right-of-way.
- All landscaping shall be maintained in a reasonable manner which shall include, but not be limited to, trimming, weeding, irrigating, fertilizing, mowing, replacing, cleaning, etc.
