

Service Beyond Expectation

LEAD WATER UTILITY WORKER

Job Status: Non-Exempt
Date Adopted: 01-01-2015
Date Modified: 03-16-2023

Safety Sensitive Position

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

DEFINITION

Under supervision, performs a variety of semi-skilled and skilled duties in the inspection, installation, maintenance, and repair of water distribution system facilities; assists in maintenance tasks related to the sewer collection system; and performs various tasks relative to assigned area of responsibility.

DISTINGUISHING CHARACTERISTICS

The Lead Water Utility Worker is an advanced lead level in the Water Utility Worker series. At this level, incumbents perform the most complex and specialized tasks while exercising broader discretion and independent judgment within established guidelines.

SUPERVISION RECEIVED AND EXERCISED

Direct supervision is received from the Operations Supervisor (Water Utility) and/or Operations Manager (Construction & Maintenance). Technical or functional work direction may occasionally be provided to Water Utility Worker I/II by the Lead Water Utility Worker.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS

Essential and other important responsibilities and duties may include, but are not limited to, the following:

Essential Functions:

1. Installs and repairs water mains and fire hydrants, check valves and water service lines; taps water mains; performs ground excavation work; mixes, rakes, and spreads asphalt; and patches and/or repairs excavations.
2. Locates, identifies, and marks distribution system facilities, including valves, fire hydrants, and blow-offs; advises the USA Locates organization; assists in updating District's water mapping and atlas functions.
3. Inspects, operates, and exercises gate valves to prevent freeze-ups; flushes fire hydrants and dead-end water lines in cul-de-sacs to remove sediment; takes water samples for testing.
4. Installs relocates, and adjusts meter boxes and valve cans; installs, calibrate, and exchanges water meters.
5. Operates backhoe, front-end loader, dump truck, or vactor truck; routinely inspects and performs minor maintenance on assigned vehicles and equipment; removes and replaces defective parts.

Lead Water Utility Worker

Essential Functions (continued):

6. Utilizes hand and power tools applicable to the work, including jackhammer, pipe locator, welding, and cutting equipment.
7. Maintains accurate records and logs of work performed, including service orders and accounting for time and materials used on various jobs.
8. Performs all work in accordance with established safety policies and procedures, including OSHA regulations relating to trench shoring and working in confined spaces.
9. May assist in orienting or training new personnel; makes recommendations on improvements to job procedures.
10. District employees are expected to work overtime, weekends, evenings, and holidays as required to accommodate the District's needs, in addition to responding as a Disaster Emergency Service Worker.
11. Regular attendance at the work site.

Marginal Functions:

1. Performs weed abatement duties at various District sites.
2. Perform related duties in sewer collection system maintenance, either during normal working hours or after-hours call-outs.
3. Performs related duties and responsibilities as required.
